About The Author

Best fitness apps

Map my fitness

This app is free but it supports ads. But that's not the only thing it supports. It also supports running, yoga, swimming, cycling and a host of activities

One you couch to 5k

The goal of this app is to get to you exercise more. And it does just that. If you are beginner at working out, this is your ride

StrongLifts 5x5

By the name, this is the app that follows the idea of 5 reps of 5 sets. It's a great app for intermediate and beginners also.

Strava

If you are the running kind, this is your app. It's one of the best there is and for good reason. This will get you to beat your personal best.

Freeletics

This is that app that'll help you to be strong and get in shape without need a gym. You get bodyweight exercises to replace the weights.

Best apps for printing wirelessly

Google cloud print

If you have a Google Cloud connected printer, you will be able to take advantage of this app. You can send documents or images from your file storage or gallery to the Google cloud printer

Starprint

If you would not like to have app that doesn't belong to big brands, this is that app. It supports printing through Bluetooth, Wi-Fi and even USB if that's what you want

Epson iPrint

With this app, you'll be able to print with Wi-Fi enabled printers easily. With just one button, you can scan, print or share documents.

HP All In One Printer remote

With this strong app, you can snap a picture with your device and send to the printer to print directly. You can also get files from cloud services

Samsung mobile print

This has all the features that you get in the Epson app but you get a much cleaner interface. And this is always a plus for applications

Best apps for texting

Chomp SMS

This is one great app that has been around for some time. It gives you SMS blocking, MMS, emojis and quickly reply for messages

Facebook messenger

It's a great way to keep tabs on family and friend because who isn't on Facebook. You should also try to enable its support for SMS

Handcent Next SMS

When we talk of the 2 main apps for texting, it's Handcent and Chomp. The Handcent Next also gives you SMS backup and you can change themes.

Pulse SMS

At first glance it's like a normal texting app but when you look in closely, you find that it also allows you to text from other devices like computers.

Textra

It's one of the very stylish apps that have been rated high by Android users. And it gives ability to select the colors for the theme yourself

Best apps for recording/ tracking books

Litsy

It's a great thing that Android users can now use this app. it has a clean interface like Instagram and it's a great way to share book quotes and also tag books

Goodreads

This app is one powerhouse. Among its many uses, you can also use it to record and track your reading progress. You can also use it to see the book others read

Libib

If you are looking for a way to organize your books, Libib is that app you should choose. You can section your books and search for them when you need them.

Scribd

This app is great if you one who always forget to bring a book with you. You have a large collection of books and audiobooks that you can access conveniently.

Serial reader

Funny name but the app allows you to read portion of books. And you can quickly read these passages this in 20 minutes which makes is the perfect app for busy moms

Best apps for weather reports

AccuWeather

AccuWeather is one of the very solid weather apps that gives the basics and also advanced stuffs if you are looking for extended forecasts or by the hour.

Carrot weather

It's one of the new ones available but you also get some sarcastic quotes from it. You get the normal forecast and also hourly temperatures.

1Weather

Created by OneLouder apps, it's a very popular app and also one of the weather apps rated highest. If you don't want ads, you also need to pay a cheap price.

Dark sky

This app didn't go well with people when it started as it's got a subscription. But if don't

want to the few premium features there's a free plan. The free plan gives you virtually everything you need.

Google feed

Not your usual but you still get the weather. You just need to ask Google to give the forecast of the day. You can select the weather card to get more info

Best apps for sport news

ESPN

This is one of the big names in the sports app industry. It features different big sports MLB, NBA, NFL and the NHL

Feedly

This app does not go with any blogs. But what this allows you to do is to select the sport site or blog you want to go with.

theScore

One of the great sport app for mobile devices. The app is decent, clean and it gives you the very popular sports like ESPN.

SofaScore

This one covers many sports including European with American football, volleyball, polo, tennis, hockey, rugby and other sports

Thuuz Sports

Not as popular as the others but it's been around for some time now. One of the great things of the app is that games get ranked by excitement.

Best photo editing apps

Snapseed

You just can't get away without installing this app on your device. If you are not an editing expert, you get preset filters to help you beautify

Adobe Photoshop express

Everyone knows Photoshop. It's a powerful photo editing app for computers. But now Adobe has released the mobile version which they tried to squeeze the needed tools in.

Foodie

This one is for those who would love to take some killer photos of their food. It also helps you align if you shoot the image from top

LiveCollage Photo collage

This is that photo collage maker that gives hundreds of layouts. There's no guessing, you will find one to match your need

Visage

If you would like to get rid of bags under the eyes or pipes, Visage makes it possible in your photos. It's free and you can get some cool effects

Best music apps

Spotify

It's one of the best apps you can install to find out new music. If you are the type that likes to create and share playlists, you want to try this one. With the premium plan, you can download any song you want and listen to playlists offline

Apple Music

Though it's Apple oriented, it's also available for android users. But the downside of the app is that you don't get a free plan. But with the subscription, you can also listen to songs offline

Amazon music

If you are prime user, you can access prime music for free. With prime music, you also get the option to download to your Android device

Pandora

You just need to pick one song and the app will continue to play songs that sounds familiar for hours. If you choose the paid plan, you can download songs to listen to off line.

SoundCloud

The SoundCloud app is a great app to use to find upcoming artists in a particular genre you love. It is a free streaming service that you can use anywhere. But while its main feature is streaming, you also get the option for offline. You can download some tracks offline for free. But when you subscribe to the paid plan, you can get the chance to download hundreds of songs offline.

Best video/movie apps

Tubi TV

This has collections of moves you can access for free. And they are arranged into categories like comedy, romance and horror. You can also look through popular and featured movies.

Yidio

This is a great and convenient way to look for movies. But while most of the movies are free, you will be directed to other apps where you can watch online for free

Sony crackle

In the film industry, everyone knows Sony Pictures. But when it comes for free movies, Sony Crackle on one of the best aps there is. You get new hit movies and also old classics

Snag films

With this app, you can watch, TV shows, movies, comedy shorts or documentaries on your Android device. You also get the movies segregated to different genres

Netflix

This is the big one. This service is the leading service for watching movies and TV shows on your device. You get the app with your Netflix membership.

Best cooking apps

BigOven

And it's a big oven indeed. This app is one of the largest recipe apps available. It has about 350,000 recipes and it continues to grow. If you would like, you can even upload your own

Food.com

This app is expansive. It has get over 500,000 recipes. And it also gives users the ability to create menus and also a grocery list. You can also divide the food according to the requirements of your diet

Yummly

The strength of this app is that it collects recipes from different sites and makes it available for you. It also gives search queries for food blogs.

All recipe dinner spinner

If you totally have no idea what you can make this night, this app gives you some of the best recommendations. The interface is like Tinder and you can slide off a recipe that doesn't favor you.

Paprika recipe maker

This is one of the simplest recipe management app available. It works with many sites to make sure that recipes are available for you to cook.
